THE PROCESS AND PROTECTIONS

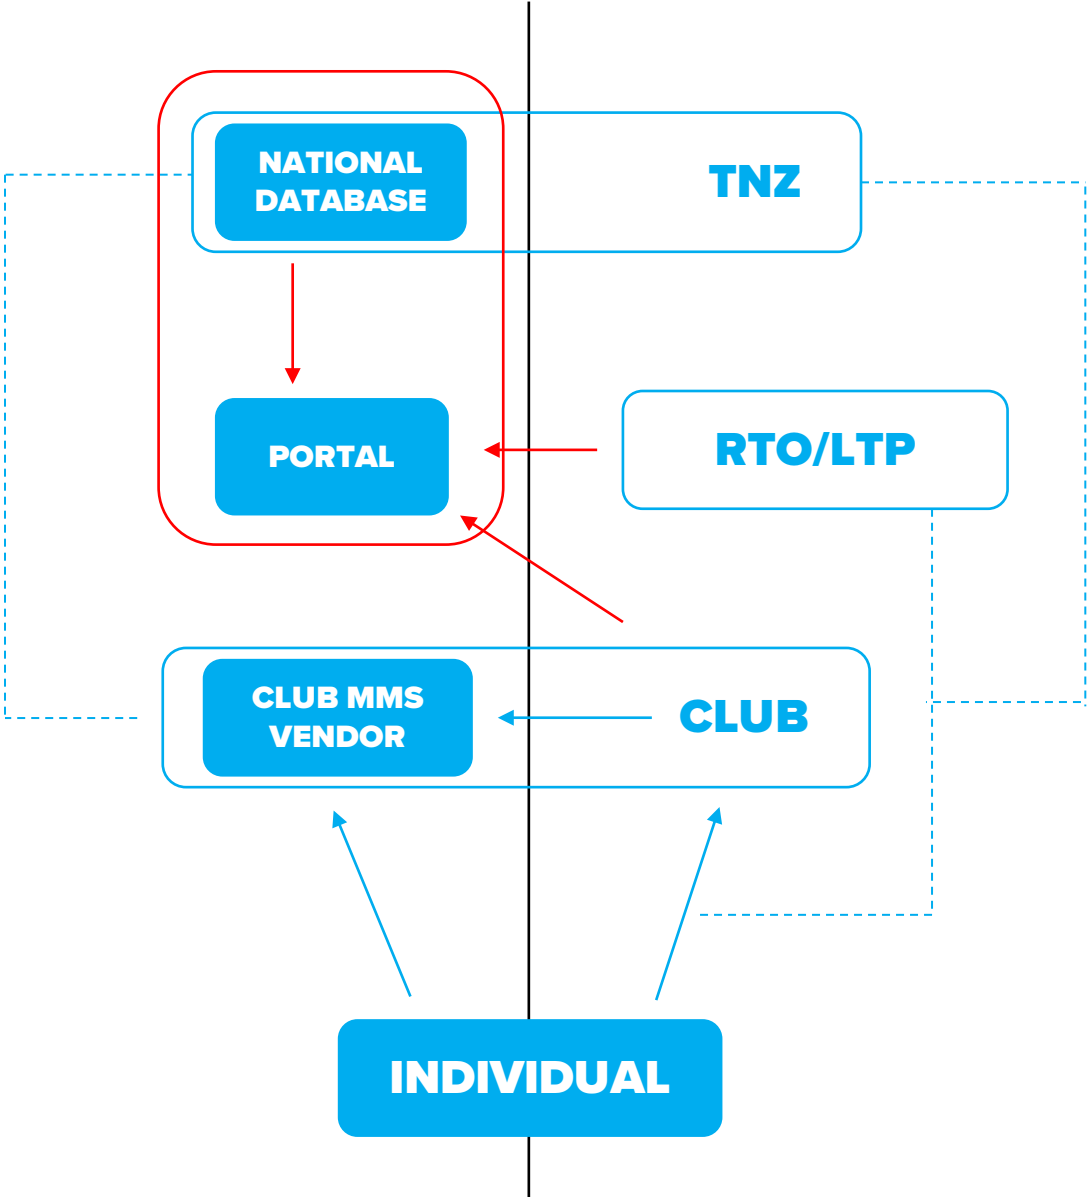

Data stored in the National Database (Microsoft Dynamics platform) is protected by TNZ Data Privacy (in accordance with NZ Privacy Act 2020) and Management Policies. This extends to its use/sharing and viewing via the TNZ Portal by Clubs/RTOs/LTPs and those users granted access to it.

The Tennis NZ regulations outline the minimum data points we required from MMS Vendors and that specific set of data is pulled into the national database. There may be other data points collected by the club that are not pulled.

In the terms of service that my Club has agreed to with the MMS Vendor, it states that the data collected on Individuals can be shared with the National body and other relevant parties. As an Individual, I have the ability to 'opt out' of communications via my login to the Clubs MMS provider.

When I join the club as a member, I provide it personal information as requested. This data is managed/stored by the clubs third party MMS provider and covered by the providers Data Privacy Policy. The Clubs own privacy policy should also be displayed to the individual.
